

## PRESS RELEASE

Zug, September 30<sup>th</sup>, 2016

### **Rontis Corporation launches the Nasalou<sup>®</sup> nasal aspirator**

Throughout our history, our constant commitment to keep improving our existing portfolio and developing new products is of great importance to us. Our continuous investment into the development of powerful brands, so as to enter more product categories focused on infants, babies and children, has just led to a complementary NEW brand that joined our Consumer Healthcare portfolio.

Rontis Corporation proudly announces the introduction of the NEW *Nasalou<sup>®</sup>* nasal aspirator series of products to the market.

The *Nasalou<sup>®</sup>* nasal aspirator with *sterile tips* is specially designed for use in the nostrils of newborns, babies and toddlers. It helps prevent and relieve cold symptoms such as nasal congestion and secretion, flu processes, sinusitis and symptoms of allergies. It facilitates baby's easy breathing, feeding and sleeping.

The Nasalou<sup>®</sup> nasal aspirator Starter Kit includes the nasal aspirator device and 2 individual packed, soft & flexible, sterile tips. Packages of 12 & 24 sterile spare tips are sold separately.

Our state-of-the-art products, combined with many years of experience in the field of Consumer Healthcare and pediatrics, make us the specialized leading company that aims, above all, to maximize consumers' satisfaction by offering infants and babies, parents and healthcare professionals, the best possible solutions in terms of high quality, advanced technology and guaranteed safety.

Following the development of the dermaceutical ranges of *novalou* and *novatopia*, *Rontis* is always committed to providing an exceptional and complete line of products focusing on the diverse needs of our little ones from the beginning of their life.

To learn more about Nasalou® we invite you to visit our dedicated Consumer Healthcare website [www.rontischc.com](http://www.rontischc.com)
